

David Levitan's World of Magic

Magic • Juggling • Comedy

*David's a master magician with a marvelous comedic skill.
He presents a variety of shows for schools and family audiences.*

With younger audiences David creates a friendly atmosphere in which the kids join him on an adventure and he is as surprised by his tricks as they are.

The audience as a whole and the many participants he brings on stage come to feel that they are the magicians as David responds to their "magic" with the childlike innocence of a classic clown.

Young audiences love his playfulness.

For school audiences of grade four and up, the performance is very different. This is a solid magic show that doesn't condescend to the audience just because they're kids. Card tricks and Mind Reading make this a show that kids will think is way too cool for school.

For evening programs and family audiences David presents a range of fun material sure to involve all ages and entertain the adults as well.

*Three versions: for grades K-2; 3-6 and family audiences.
Walk-Around entertainment for special events also available*
